

**Welcome**

**Presents**

***"Advanced Diagnostics: Exploring Tools and Techniques"***

***Instructor: Scott Brown***

**"Join us for an in-depth online seminar where Scott Brown will begin with walking us through HPTuner's VCM Scanner to uncover best practices for engine performance analysis.**

**Next, dive into advanced Picoscope CAN Bus diagnostics, explore what happens when a foreign CAN device attempt to communicate, using the built-in decoder, and using a current probe to find which messages a module is transmitting.**

**Finally, we will explore Tesla's service information and then jump into basic diagnostics and then explore Toolbox and walk through using sandbox to analyze causal effects and we will also take a closer look at the innovative technology debuting in the Tesla Cybertruck. Do not miss this opportunity to enhance your diagnostic ability!**

# INDUSTRY ATTENDS

**A single place to find all of the events happening in our industry...**

**in one easy to use automotive training & events calendar**

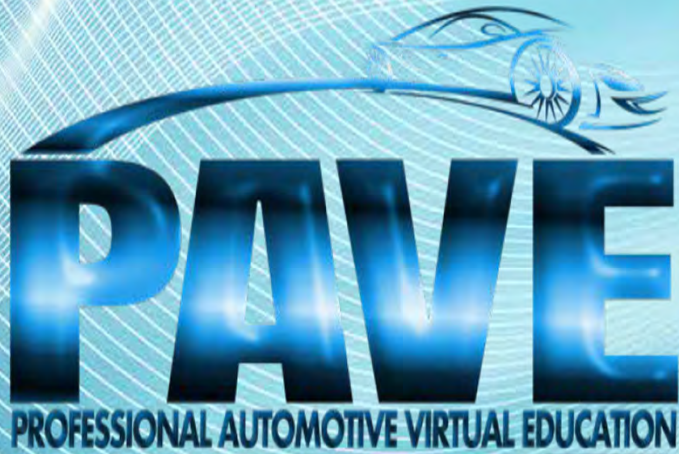

**...and best of all - it's FREE!**

**INDUSTRYATTENDS.COM**

**PAVE**  
PROFESSIONAL AUTOMOTIVE VIRTUAL EDUCATION

**ULTIMATE VIRTUAL TRAINING EVENT:**

**Friday – Saturday, January 17 – 18, 2025**

**Professional Training for:**  
**Technicians**  
**Owners**  
**Managers**  
**Service Advisors**

**Value Pricing**  
**\$129.00** per person

- Industry's Leading Instructors
- 24 training sessions over 2 days
- Receive up to 30 training hours

- All sessions available on-demand for 30 days, with training materials when available

**Register Today!** [\*\*PAVEtraining.com\*\*](https://PAVEtraining.com)

# "Dorman Training"

**Thursday, December 19, 2024**

**Live Webinar:** 7:00 p.m.—9:00 p.m. EST

In this course, technicians will learn to diagnose and address the needs of internal combustion engines like mechanical, ignition and air fuel systems. Common no start causes like anti-theft and bus communication faults will also be covered.

## Automotive Electronics for Today's Vehicles

**Tue, Jan 7, 2025, - Thu, Jan 9, 2025,**

**Homewood Suites by Hilton Allentown (map)**

**5:30 p.m.—10:00 p.m. EST | Bethlehem, PA | In-Person**

In this course, build useful electronic skills for diagnosing and repairing late-model vehicles. Technicians will learn about circuits and circuit testing, opens, shorts, voltage drops, relay testing, DVOM usage, lab scope/graphing meter usage, sensors and actuators.

**Note:** This is a three-day class

## Utilizing the Autel Diagnostic Tool Part 1

**Tuesday, January 7, 2025**

**Fort Myers Technical College (map)**

**5:30 p.m.—10:00 p.m. EST | Fort Myers, FL | Hands-On**

In the first part of this series, learn how to maximize the effectiveness of your Autel scan tool. Technicians will learn button functions, diagnostic aids, pre- and post-scan reports, graphing techniques, interpretation and use cases for Modes 6, 9 and 0A/10, plus an overview of generic and enhanced modes for the tool.
